Advanced Plus Dynamics SL/Solomon Project Upgrade to MS Dynamics 365 Business Central with Project Management Deployment: 6-Wk Implementation

Nexus Technologies: \$30,000

Upgrade Nexus Technologies SL/Solomon Project Management to Microsoft newest Financial Microsoft Dynamics 365 Business Central application with Project Management and Timesheets quickly. While taking advantage of this time to clean up master data, deploy workflows approvals, ACH and Bank Imports.

Our Advanced Plus Dynamics SL/Solomon Project upgrade to Microsoft Dynamics 365 Business Central Application with Project Management deployment is our advanced upgrade deployment for organizations that want to deploy to the latest version of Dynamics quickly and efficiently. At the same time use this time to move to the new web-based client for timesheet and project management entry. Clean up master data, deploy approval and workflow process, web timesheet entry. Deploy ACH and automated bank imports. This allows customers to deploy General Ledger, Accounts Payable, Cash Management, Accounts Receivable, Project Management, Timesheet Entry and Expense Reporting, while at the same time make a few improvements along the way.

This plan includes 240 hours of ITA Dynamics assistance and consulting efforts. (\$195/Hour additional services)
